

Poinsettia *fun facts:*

The colorful leaves of the poinsettia are in fact just that—leaves, the flowers are actually the smaller yellow buds at the center of the plant.

Ohio produces over 3 million poinsettias a year, earning the number five spot in the United States for Poinsettia production.

Ohio is the leading producer of greenhouse and nursery plants.

Poinsettias are often said to be poisonous, they are not...however beware...Holly Berries are!
